

SpatFree™ - Nozzle

Prevents Spatter Adhering to Sensitive Components

SpatFree™ - Nozzle is a new product that is specially meant for application on welding nozzles and improvement of life span of welding nozzles.

SpatFree™ - Nozzle is suitable for use on fixtures of MIG, semi automatic & automatic etc. welding equipment.

Features :

- Non Toxic
- Non Flammable
- Odorless
- Silicon Free
- Does not cause porosity

Application Procedure :

SpatFree™ - Nozzle creates an Anti-Spatter film on welding gun nozzles Cool the Nozzle gun and remove the impurities Remove spatters around the contact tip and inside the nozzle.

- Dip gun nozzle in to **SpatFree™ - Nozzle** and start work operations.
- Brush onto positioners and fixtures. Avoid build up of **SpatFree™ - Nozzle** in the diffuser by storing the torch in a downward direction when not in use.

Packing : 300 gm bottle and 4 kg jar

Caution : Avoid contact with eyes as the material is slightly discomforting to the eyes. Avoid prolonged skin contact as it may cause drying of the skin. Use in a well ventilated area, however, **SpatFree™ - Nozzle** is not normally a hazard due to the non-volatile nature of the product.
